

# Thank you for purchasing Alphabet Tracer

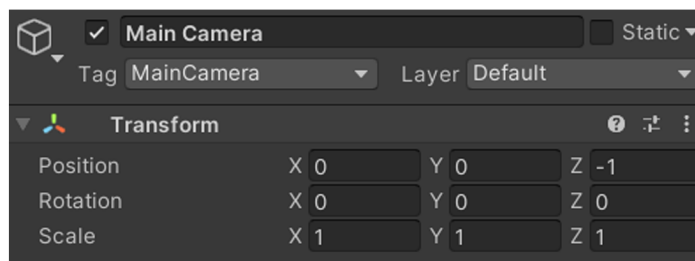

Alphabet Tracer is a simple Line Tracer tool to draw English alphabet letters.

## How to use

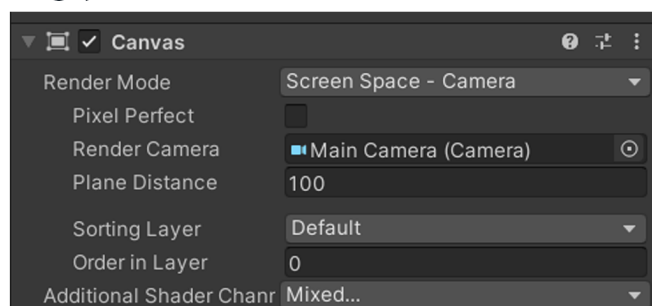

1. First you need to set your Projection setting on your Main Camera to “Orthographic”.

2. Then you need to set your Main Camera Z Transform into Z=1.

3. Then you need to set your Canvas Render Mode into “ScreenSpace - Camera” And drag your Main Camera into it.

4. At last you can drag and drop a letter from your “Letter Prefabs” folder. You can find example scenes for each letter at “Letter Scenes” folder.
